

# WHY WISCONSIN?

## UW-MADISON TURFGRASS SCIENCE

ENTOMOLOGY \* GENETICS \* HORTICULTURE \* PLANT PATHOLOGY \* SOIL SCIENCE

The University of Wisconsin – Madison is one the most respected universities in the world with more than 45,000 students from all 50 states and 134 countries. As a turfgrass student at UW you will experience a world class education, have access to internships at famous sites like Whistling Straits, Erin Hills, and Lambeau Field, and jump around with 80,000 Badgers fans at Camp Randall Stadium. During your turfgrass education at UW-Madison you will learn from the latest research, receive hands-on experience in the field and in the shop, and network with your fellow students and Wisconsin turfgrass managers from all walks of the turfgrass industry. All that’s left to advance your career and experience life as a student at UW-Madison is to enroll!

### INTERNSHIPS AND HANDS-ON LEARNING OPPORTUNITIES

Wisconsin is home to nearly 500 golf courses, which include some of the world’s best tracks. We are home to top-rated public courses like Sand Valley, Whistling Straights, Erin Hills, and our own University Ridge; as well as private golf clubs like Blue Mound Golf and Country Club, Blackhawk Country Club, and Maple Bluff Country Club just to name a few.

Students interested in sports turf management can learn from the best at American Family Park or historic Lambeau Field, among others. Many of our alumni work in the growing and lucrative lawn care industry. UW-Madison’s O.J. Noer Turfgrass Research and Education Facility is one of the best in the world. You will see how turfgrass research is done and have the chance to participate in turfgrass research projects. Many of our alumni have ended up in turfgrass research, development, and education as a result of this experience.
